

**REMARKS**

The amendments to the claims are made to correct minor errors prior to the issuance of the patent. Specifically, the amendment is made to correct claims 13 and 55 to recite "cerium" instead of "cesium". This is an obvious error in that the claims recite a rare earth element and it is well known that cesium is not a rare earth element. It is believed that these amendments do not change the scope of the claims.

The issue fee has not yet been paid. Approval and entry of the proposed amendment is respectfully requested.

Respectfully submitted,

FAY SHARPE LLP
